Past performance is not necessarily indicative of future results. There is always a risk of loss in futures trading. Actual returns may differ from reported results due to differences in contribution dates, commission and fee structures. Unless otherwise specified, the tables and charts above represent the summation of actual trades based on system-specified orders executed through BTR Trading Group, Inc. using the referenced trading system or system vendor for the stated time period. Performance statistics referenced herein represent a model tracking account. This tracking account rises or falls based on the average per trading unit profit and loss achieved by actual clients trading this system. Profits are not reinvested and all rates of return are non-compounded or expressed. Subscription fees amortized over the trading days in each month. The above benchmarks are for illustrative purposes only. The SG CTA Index and iShares AGG (Bonds) reflect reinvestment income and dividends. The SG CTA Index is not directly investable. The S&P 500 is unmanaged, not directly investable, reflects reinvestment income and does not reflect the impact of advisory fees. Be advised that any index performance is for the constituents of that index only, and does not represent the entire universe of possible investments within that asset class. Further, there can be limitations and biases to indices such as survivorship, self reporting and instant history. No warranty, representation or guarantee is made with regard to the accuracy of index data.
